Doing bio-design trend research for projects.
Helping instructors with bio-design exhibition on campus.

Languages

Mandarin - native
English - fluent

Main Projects

SKINGO

Product Design 5, SP 2024

This is a skincare product designed for Bobbi Brown, intended for use during travel. By integrating AI facial scanning technology while maintaining the pure physical and mechanical principles, it minimized costs and providing users with professional skincare services.

CAMPUP

Product Design 4, FA 2023

A camping chair designed for Patagonia that allows users and dog to intimately sit together, enjoying leisure time. The chair is fully collapsible and portable and suit for dog's height, too.

FLAMIX

Product Design 2, SP 2022

This is a safe, portable, and multi-functional family overlanding firepit. By adding handles, locking mechanisms, flat-pack packaging, and grilling functionality, the firepit becomes more practical and well-rounded.
